Tour in Kuldīga. **Kuldīga** is yet another Latvian pearl of architecture. Did you know that it is the location of the widest waterfall in Europe? Romantic streets and baroque-style buildings with 19th century stone bridges are what make Kuldīga so charming.

Kuldīga is a town in Kurzeme, right by the **Venta Rapid**. In the 16th–17th century, it was the residence of the Duke of Courland and Semigallia and his court. It was also one of the Hanseatic League towns.

The culture-historical heritage is an integral part of Kuldīga's identity. Because of its rich cultural heritage, Kuldīga Old Town in the Primeval Valley of the River Venta was included in the Latvian National Register of UNESCO's World Heritage on 25 February 2011. In 2007, Kuldīga Old Town in the Primeval Valley of the River Venta was recognised as the European Destination of Excellence, and in 2008, the historic centre of Kuldīga received the European Heritage Label.

The historic centre of Kuldīga and its architecture have to be seen as one with the unique natural landscape. Together, the historic architecture and nature create a one-of-a-kind ensemble that has no equivalent in Latvia or Europe.

Historically, the River Venta and Venta Rapid have played a significant role in the development of the town of Kuldīga.
